ADDENDUM CT HANDLING OF CONTAINERS

I. GENERAL TERMS AND CONDITIONS

Article 1

- (1) These "Terms & Conditions and Charges for Services provided by Port of Varna EAD" (as a port for public transport) shall regulate rendering of services and payment thereof by shippers, ship owners and other Customers related to cargo handling from/to vessels and inland transport units, as well as other supporting activities, in accordance with the Law on Maritime Spaces, Inland Waterways and Ports of the Republic of Bulgaria.
- (2) The port services and corresponding charges shall apply for port terminals and the Storage Base under the jurisdiction of Port of Varna EAD, and depending on their nature, these are divided into:
 1. Stevedoring, transport, storage and additional services
 2. Services to vessels and other users of electric power, water, telephone communications, etc.
 3. Services provided to sports & pleasure boats
 4. Other activities.

Article 2

Charges for services provided by Port of Varna EAD shall be paid either in EUR or in BGN equivalence calculated at the EUR exchange rate of Bulgarian National Bank valid on the day of service rendering.

Article 3

Charges for port services are quoted in EURO (EUR) and these do not include VAT. VAT will be charged in addition, in accordance with the applicable Law on Value Added Tax and the Rules for Enforcement of the Law on VAT.

Article 4

The charges of TERMS & CONDITIONS AND CHARGES FOR SERVICES PROVIDED BY PORT OF VARNA EAD /Main tariff/ shall be paid:

- a) per ton or part thereof of the gross weight of cargo (where charge per ton is applied)
- b) per time period (hour, day, month or part thereof, or other measurement unit)
- c) per man-hour or part thereof (where charge per man-hour is applied)
- d) per machine-hour or part thereof (where charge per machine-hour is applied)
- e) per metre per hour, per day, per month

Article 5

- (1) Payment settlements between the Port and the Customers shall be made in accordance with the enforceable law by means of either:
 1. Direct bank transfer to the Port's bank account, or
 2. In cash, for small amounts paid by non-contract customers.
- (2) Customers (their respective forwarders or agents) shall be responsible for making payments as per invoices for port services submitted to them within seven days of the invoicing date, unless otherwise agreed in writing.
- (3) When payment is delayed, the Port will charge the Customer in debt the lawful interest on the outstanding amount for the overdue period.

Article 6

- (1) These Terms & Conditions and Charges for Services provided by Port of Varna EAD are formed on the basis of approved pricing methodology.
- (2) The charges and conditions under Para 1 can be changed subject to agreements with the Customers.
- (3) The Executive Director of Port of Varna EAD shall appoint a special Trade Policy Commission (TPC) which shall review the Customer's information about cargo traffic, planned and implemented volumes, the regularity of payments and the actual market conditions, and on certain conditions shall propose to the Executive Director specific terms, conditions and charges.

- (4) In case of change in circumstances affecting the cost of service, the Port shall have the right to change and/or make additions to these "Terms, Conditions and Charges". This shall apply also in case that the information submitted by the Customer about the handled cargo is incomplete, untrue or inconsistent with cargo's real qualities, properties, size, etc. or when such data differs from the data required for the usually applied technology of handling or storage.
- (5) Any port services unmentioned in these "Terms, Conditions and Charges", including services to goods with specific properties, size and condition affecting the cost of service and/or technology of handling, shall be charged as per agreement.
- (6) On definite conditions, the Port can offer a lumpsum charge for all or part of the expected operations and/or storage of certain cargo.

II. TYPES OF SERVICES AND CHARGES

Article 7

Port services as per article 116(1) from Maritime Space, Inland Waterways and Ports of the Republic of Bulgaria Act:

- 1) Port services as per article 116(2), item 2 from Maritime Space, Inland Waterways and Ports of the Republic of Bulgaria Act are described in:

Table 1 - Stevedoring services during cargo handling /Main Handling Service /;

Table 2 - Port services during Storage Services;

Table 3 - Section I and Section II /another port services like sorting, repacking of different types of cargoes, intra-port (terminal) transportation of cargoes, usage of electric power and water acc. supply of port services/;

Table 3 - Section III Document issuance during cargo processing and other services;

Table 4 - Hiring of Port plant;

Table 6 - Hiring of Port's Gear;

Table 7 - Issuing of Permits for Access to Port Terminals;

Table CT - Addendum CT

- 2) Technical marine services as per article 116(2), item 1 from Maritime Space, Inland Waterways and Ports of the Republic of Bulgaria Act:

Table 3 - Section IV Supply of electric power, water, telephone communications and other port services of vessels in international voyage (except other port services);

Table 3 - Section V Port service for mooring operations;

Table 3 - Section V (A) Berth facilities fee usage /BFFU/;

Table 3 - Section IV and Section V Provision of a berth of vessels (for accommodation, shelter, purposes of ship supply and crew change);

Table 5 - Services to Sports & Pleasure Boats (except Section III).

- 3) Passenger services as per article 116(2), point 3 from Maritime Space, Inland Waterways and Ports of the Republic of Bulgaria Act:

Table 3 - Section IV Other Port Services, item 36 and item 37;

- 4) Ancillary services as per article 116(a) from Maritime Space, Inland Waterways and Ports of the Republic of Bulgaria Act:

Table 3 - Section IV Other Port Services, item 38 Posting advertisements in locations on the territory of Port of Varna EAD by advertisers;

Table 3 - Section IV Supply of electric power, water, items 28.1, 28.3, 28.4 (b), 28.5,28.6, 29.2, 29.3 (b), except of cabotage vessels;

Table 5 - Section III Other Port Services, item 1.1 and item 3.1;

Revenues from non-port activities for leased areas under State Property Act.

Article 8

- (1) Main stevedoring services and corresponding charges shall include:
 1. Organization of all arrangements as necessary for commencement and completion of cargo operations
 2. Loading/unloading cargo to/from vessel/vehicle (including to/from specialized technologic installation)
 3. Cargo transfer to/from the port storage facility or loading onto the transport means
 4. Cargo stowage on the transport means or in the port storage facility (open/closed/shelter)
 5. Receiving, delivery, shipment and recording of handled cargo consignments going via the Port, and processing of relevant documents.
- (2) Charges for the main handling services are divided into:
 1. Charges for direct handling (without storage of goods in a Port's storage facility) of bulk, liquid bulk or general (unitized) goods
 2. Charges for indirect handling via port storage facility of bulk and general (unitized) goods
 3. Charges for container handling, depending on the transport pattern and state of container (full/empty).
- (3) Charges for the main handling services do not include the additional surcharges or discounts as described in Article 11 below and also in Section IV, Table 1 and Section II, ADDENDUM CT
- (4) For goods not going over berth of Port of Varna EAD, the respective charges for main handling services shall apply as per Table 1 and ADDENDUM CT, depending on the handling option.
- (5) In case that general cargo or bulk goods are handled as per "ship-berth/storage-ship" option, the charges for main handling operations for direct handling shall be levied twice.
- (6) Charges for main handling services will be levied:
 1. per ton or part thereof, based on the gross tonnage (in metric tons) as stated in the B/L of cargo carried by sea/rail/road
 2. per one container, full pallet or self-propelled vehicle (cargo unit).
- (7) The gross tonnage of cargo includes: the weight of packing, indicated container tare, weight of pallets (Euro type/Industrial) or box-pallets, as well as the weight of dunnage and weather protection materials.
- (8) Charges for main handling services will be levied as follows:
 1. For goods going in land–sea direction: on the date of completion of loading onto a vessel
 2. For goods going in sea–land direction: on the date of signing the Outturn Report for the vessel
 3. For goods going in land–land direction: on the date of service performing.
- (9) All main handling services will be charged on the basis of the documents as required by the current "Instructions for organization of work, order of receiving, issuing, processing and keeping the documents related to cargo handling operations in Port of Varna EAD".

Article 9

The charges for storage services shall not exclude the possibility for individual agreements with the Customer depending on the nature of cargo/service.

Article 10

The customers themselves and at their own expense transport the goods from any berth in port of Varna East/West to the Storage Base or vice versa.

III. ABNORMAL WORKING CONDITIONS AND STATE OF CARGO

Article 11

- (1) "Abnormal working conditions, state and shape of cargo" means lack of normal working conditions for handling of sea or land transport means, deriving from the technical design or type of vessels and vehicles, or from the shape and state of cargo. Such abnormal conditions are subject to additional surcharges over the base handling charges as indicated in Section IV, Table 1 and Section II, ADDENDUM CT. Surcharge will be levied as a percentage over the regular charge.
- (2) The quantity of cargo handled under abnormal conditions will be ascertained by Act duly issued by representatives of the Port, Customs Office, carrier and/or shipper or its forwarder/agent.
- (3) Main handling charges are subject to 50% increase in case of:
 1. Abnormal working conditions:
 - a) no separation between different consignments as per B/L (articles in the B/L), and sorting is needed
 - b) handling of vessels with hatch square under 18 square meters; handling of cargo in compartments which are not intended for cargo stowage: lockers, deep tanks, cabins/decks, etc.
 - c) moving of cargo to a distance longer than 6 meters from the hold opening
 - d) handling of cargo from vehicles when consignments are mixed and not arranged in accordance with cargo documents.
 2. Abnormal state and shape of cargo:
 - a) handling of goods in damaged packing: torn or damaged bags, broken cases, torn bands, untied bales, rotten or punched packing, or packing covered with corrosive substance (acid, caustic soda, chemicals), over-heated bags (over 40°C), etc.
 - b) bags with hardened contents, bags with nylon packing, distorted or unshaped bales, damaged barrels
 - c) oil stained pipes, pipes with bitumen coating, pipes of diameter over 100 cm, pipe bends, handling of mixed-up metals
 - d) loading/unloading frozen, iced, snowed or sticky goods
 - e) operations with infected or contaminated goods, as well as consolidated, hardened or melting goods
 - f) operations at air temperatures below -10°C
 - g) other abnormal state and shape of goods which may hamper stevedoring operations, unmentioned above.
- (4) The charges for main handling services will be increased by the respective percentage over the regular charges for direct handling in case of:
 1. trimming or spreading of bulk goods: 80%
 2. pushing, arranging or pulling out cargo stowed in under-deck compartments:
 - by hand: 80%
 - by means of equipment: 50%
 3. handling of vessels with hatch openings smaller than 12 square metres: 100%
 4. loading of containers with specific container numbers on board and/or in underdeck compartments as requested by the ship owner or the Customer: by 25% over the charges in Item 1, Section I, Table 1A (excluding IMO class containers, reefer containers or flat racks).
- (5) Surcharges over the base handling charges will be agreed individually:
 1. when handling out-of-gauge goods
 2. when working conditions for a certain operation are extremely severe.

Article 12

Surcharges (in percentages) on base handling charges which apply for goods handled in such a state and under such conditions which result in disruption of loading/discharging operations and lower productivity are listed in Section IV, Table 1 and Section II, ADDENDUM CT.

Article 13

When a consignment of cargo falls under more than one abnormal condition or state of cargo, or when other surcharges/discounts should also apply, the actual due amount will be calculated as a sum of all surcharges/discounts incurred.

IV. OTHER TERMS AND CONDITIONS FOR CHARGING

Article 14

In case that cargo consignment has been cancelled for export and shipped back to the hinterland, the charges for main handling services will be payable at full rate.

Article 15

In case that several types of cargo chargeable at different tariff rates are included in the same document (without specifying separately numbers or unit weights), the highest rate for the main handling operations will apply for the entire consignment.

Article 16

- (1) Materials needed for loading/discharging operations and additional services (ex. dunnage used during loading of trucks, rail cars, vessels – including dunnage for heavy parcels, lashing of cargo units, etc.) are not included in the charges for port services.
- (2) Materials will be supplied by the Port subject to availability, and the Customer will be charged additionally the cost of materials plus the additional expenses incurred by the Port for purchasing, receiving, unloading, subsequent processing, etc. of such materials.
- (3) In case that the Port cannot provide the needed materials, the Customer will supply such materials at his own expense.

Article 17

Conditions for handling of dangerous goods and transit cargo related to international projects will be subject to individual agreement between the Port and the Customer.

Article 18

The Customers shall specify in the documents submitted to the Port:

1. Parcels with unit weight over 10 tons
2. Voluminous cargoes (over 2 cubic metres per ton)
3. Long length cargoes (over 8 metres in length)
4. In case of dangerous goods: the IMO class of hazardous cargo, specifications, physical and chemical properties, any safety instructions and personal protection required for handling.

Article 19

Correction of ordered service can be accepted only if the termination of requested service is possible, and subject to payment.

Article 20

The costs of fire prevention service, environmental protection, etc. incurred by the Port during loading/discharging operations/services will be charged additionally for Customer's account, subject to 20% surcharge.

Article 21

The Port shall be entitled to move/transfer at Customer's expense (without Customer's consent) any cargo consignment from one storage facility to another in case that such cargo is not shipped from the storage areas within the agreed period (including cargo dwelling for more than 3 months) or from one stockpile to another, for operational reasons.

V. OBLIGATIONS FOR PAYMENT OF CHARGES

Article 22

- (1) The Port requires 100% advance payment (deposit) of handling charges by the Customers, depending on the handling option and subject to a prior agreement made between the parties.
- (2) In case of shipment of cargo by rail, the Customers shall provide 100% advance payment of due amounts to cover the charges pursuant to the Tariffs of the relevant licensed service provider (rail freight, wagon shunting, delays, etc.).
- (3) The advance payment (deposit) shall be made by bank transfer to the Port's bank account at least 24 hours prior to actual commencement of the relevant service.

Article 23

Unless otherwise agreed beforehand, the Customers will cover the balance up to the actually due amount after the final completion of cargo handling operations.

Article 24

The Port will issue and submit to the Customers invoices for rendered services (in compliance with these "Terms & Conditions and Charges for Services provided by Port of Varna EAD"):

1. in a five-day period after completion of service
2. for cargo storage (per ton per month or part thereof; and per square metre per month or part thereof) – on every 5th day of the current month
3. for cargo storage, in case that cargo has remained unshipped for two months of receiving in the Port's storage (when charged per ton per day) – at the end of each calendar month, but not later than the shipment date of such cargo.

Article 25

Should the Customer has given instructions to the Port for shipment of imported goods by rail, the Port shall remit all due charges to rail operators as included in the B/L (shunting, weighing, washing, delays of wagons etc.) together with the cost of rail B/L to the servicing loading railway station on Customer's behalf and for Customer's account, unless the Customer has made direct arrangements for payment with the railway station.

Article 26

Should the Port find during an inspection that the weight of goods has been incorrectly stated (understated) by the Customer, the main cargo handling services will be charged at triple rate.

Article 27

- (1) In case of overdue payment (incl. when the Customer has failed to remit the advance payment), the Port shall require additional coverage in the form of a bank guarantee. Should such guarantee is not provided, the Port will be entitled:
 1. to stop receiving new cargo
 2. to stop handling of vessel
 3. to stop shipment of cargo
 4. to detain certain quantity of cargo / number of containers equivalent to the outstanding amount
 5. to terminate providing of the respective service
 6. to request detention of vessel, in compliance with the Code of Merchant Shipping.
- (2) In the event that a port service is terminated by virtue of the preceding Paragraph, the Port will send a written notice to the faulty Customer indicating the exact reasons for taking such measure.

VI. FINAL PROVISIONS

Article 28

- (1) These "Terms & Conditions and Charges for Services provided by Port of Varna EAD" shall apply, unless otherwise agreed between the Port and the Customer.
- (2) Handling of goods and providing of services not mentioned in these "Terms & Conditions and Charges for Services provided by Port of Varna EAD" shall be subject to agreement.

Article 29

- (1) The Customer shall be entitled to make a claim with the Port with respect to improper service or wrong invoicing within 14 calendar days after final completion of the agreed port services and in compliance with the port regulations.
- (2) The procedure for making and settling of claims with respect to accidents or damage and deficiency is described in Appendix 1 hereto.

Article 30

Port of Varna EAD will notify its customers through their respective forwarders or agents about any changes of terms, conditions and charges for services one month prior to their enforcement.

Article 31

- (1) These "Terms & Conditions and Charges for Services provided by Port of Varna EAD" have been adopted by the Board of Directors and shall be effective from 01.07.2024 to 31.12.2024.
- (2) With the entry into force, these "Terms & Conditions and Charges for Services provided by Port of Varna EAD" shall supersede the "Terms & Conditions and Charges for Services of Port of Varna EAD" effective from 06.01.2024 to 30.06.2024.

TABLE 1. MAIN HANDLING SERVICES (EUR, €)

BULK GOODS, LIQUID BULKS, GENERAL CARGO

Item	TYPE OF CARGO	Unit	HANDLING	
			4	5
1	2	3	4	5
Section I	BULK GOODS		Direct	Indirect
1	Wheat, maize, barley, rape-seed, heavy meal	ton	4,56	6,05
2	Sunflower, grain cake, light meal	ton	5,95	6,65
3	Sugar unrefined	ton	6,15	7,15
4	Sand, clinker, clay, limestone, dolomite	ton	3,55	4,40
5	Kaolin, bentonite, chamotte, raw gypsum, talc	ton	3,95	4,65
6	Phosphorite	ton	4,15	6,35
7	Apatite	ton	5,95	7,45
8	Ores and ore concentrates, bauxite, magnesite, pyrite	ton	3,15	4,59
9	Coal	ton	2,95	4,15
9.1	Coal of D mark		2,95	6,75
10	Coke, petro-coke	ton	3,30	5,15
11	Fertilizers	ton	4,15	5,45
12	Rock/sea/technical salt, bitumen, crushed sand, paving blocks, stones, copper slag, rubble	ton	3,00	4,10
13	Cement, urea (handling by means of specialized technologic lines)	ton	3,28	-
14	Soda ash (handling by means of specialized technologic lines)	ton	4,00	-
15	Metal waste (scrap)	ton	9,15	13,15
16	Woodchips, pellets	ton	5,42 5,77*	6,47
17	Others	ton	to be agreed	

Section I (A)	BULK GRAIN GOODS (via silo facility)	Unit	Direct	Indirect
18	Wheat, maize, barley	ton	-	6,05
19	Sunflower	ton	-	6,35
Indirect Option	Truck/hopper rail wagon – sampling – unloading station – silo – transferring by means of a belt conveyor – ship loader 2 – vessel at berth No.8/9 or shipment from a silo to trucks			

Section II	LIQUID BULKS (handling by means of specialized technologic lines)	Unit	Direct
20	Dichloroethane	ton	6,85
21	Sulfuric acid, caustic soda (sodium hydroxide)	ton	4,15
22	Liquid urea	ton	3,55
23	Wine and wine distillate	ton	1,75
24	Vegetable oil	ton	3,95
25	Waste vegetable oil	ton	4,65
26	Molasses	ton	4,85
27	Others	ton	to be agreed

Section III	GENERAL (UNITISED) CARGO	Unit	Direct	Indirect
1	2	3	4	5
28	Cargo in bags, big bags, slings:			
	a) up to 26 kg (manual)	ton	12,30	19,30
	b) over 26 kg and up to 51 kg (manual work in pairs)	ton	16,30	20,30
	c) from 500 kg up to 800 kg (big bags, slings, mechanised)	ton	6,60	9,60
	e) over 800 up to 1500 kg (big bags, slings, mechanised)	ton	6,30	9,30
	f) over 1500 kg (big bags, slings, mechanised)	ton	5,30	7,30
29	Cargo in cartons, boxes, wooden cases:			
	a) up to 20 kg (manual)	ton	15,30	18,30
	b) over 20 kg and up to 199 kg	ton	12,30	15,30
	c) over 200 kg and up to 1,499 kg	ton	11,30	14,30
	d) over 1,500 kg and up to 4,999 kg	ton	8,30	10,30
	e) over 5,000 kg and up to 10,000 kg	ton	7,30	8,30
30	Goods in pallets (EUR per unit)			
	a) up to 800 kg	pallet	7,00	10,00
	b) over 800 kg up to 1500 kg	pallet	6,00	8,00
31	Cargo in bales, bundles, packs	ton	15,30	20,30
32	Cargo in rolls, coils and reels (unit weight up to/over 500 kg) and cargo in barrels and drum containers (unit weight up to/over 150 kg)			
	a) unit weight up to 500 kg or 150 kg, respectively	ton	10,30	13,30
	b) unit weight over 500 kg or 150 kg, respectively	ton	8,30	11,30
33	Other unitised cargo, plant and equipment, structures (packed/unpacked)			
	a) up to 500 kg	ton	11,30	14,30
	b) over 500 kg and up to 1,500 kg	ton	8,30	9,30
	c) over 1,500 kg and up to 5,000 kg	ton	7,30	8,30
	d) over 5,000 kg and up to 10,000 kg	ton	6,30	7,30
	e) over 10,000 kg and up to 15,000 kg	ton	8,30	10,30
	f) tyres	ton	16,30	19,30
	g) oil or gas line pipes	ton	11,30	14,30
	h) ship machinery (unit weight up to 3,000 kg) *excluding for containerships	ton		12,30
34	Sports & pleasure boats, vehicles and hoist equipment, other equipment (loading or discharging)			
	a) yachts and boats up to 12m, via berth	unit		644
	- in case of container (un)stuffing and handling on land	unit		176
	b) yachts and boats over 12m, via berth	unit		1287
	- in case of container (un)stuffing and handling on land	unit		258
35	Wheeled or tracked vehicles, per unit	self-propelled vehicles		(Un)loading via quay with shore crane
		from ship via ramp	in case of container (un)stuffing	
a.	Mopeds, motorcycles, ATV, jets, cars, unit weight up to 3 tons	80		120

b.	Cargo vans, trucks and others, unit weight 3 to 10 tons	120	110	190
c.	Buses, trucks, trailers, unit weight 10 to 30 tons	200	150	300
d.	Agricultural, industrial and military machinery and equipment, unit weight up to 30 tons	300	200	Acc. to item 34 below (b, c and d)
Heavy plant and equipment, floating craft, transport means and other machinery (as per unit weight):				
36	a) over 15,000 kg and up to 30,000 kg	ton	13,30	16,30
	b) over 30,000 kg and up to 100,000 kg	ton	15,30	18,30
	c) over 100,000 kg and up to 130,000 kg	ton	19,30	23,30
	d) over 130,000 kg, by means of 2 port cranes	ton	23,30	28,30
Stone blocks (granite, marble), as per unit weight:				
37	a) over 10,000 kg up to 15,000 kg	ton	6,30	7,80
	b) over 15,000 kg up to 30,000 kg	ton	7,30	8,30
Metals, as per weight of cargo unit:				
38	a) up to 80 kg (incl. track rails, cross-rails, per linear metre)	ton	10,30	13,30
	b) over 80 kg and up to 250 kg (incl. metal sheets, packs, units)	ton	8,50	11,30
	c) over 250 kg and up to 1,000 kg (incl. steel wire, conductors, etc.)	ton	8,30	10,30
	d) for metal sheets, packs, pipes (over 1,000 kg – only for the mentioned types of metal/packing)	ton	7,30	9,30
	e) over 1,000 kg and up to 5,000 kg (incl. steel rolls, metals in stacks, bundles, etc.)	ton	6,30	8,30
	f) over 5,000 kg and up to 10,000 kg (incl. ingots, rolls, metals in stacks, bundles, etc.)	ton	5,30	6,30
	g) over 10,000 kg	ton	4,30	5,30
39	Cast iron (mechanised handling)	ton	7,30	10,30
40	Timber, not processed (bundled/loose)	ton	6,80	8,80
41	Timber in bundles, packs	ton	9,30	12,30
42	Other wood material (fire logs in bundles/slings, separation material, etc.)	ton	13,30	16,30
43	Plywood, cardboard, fibreboard, compressed wood and other wood products (in packs or pallets)	ton	8,30	14,30
Paper				
44	a) rolls up to 1000 kg	ton	11,30	15,30
	b) rolls over 1000 kg	ton	9,30	12,30
	c) bales (loose)	ton	12,30	13,30
Cellulose				
45	a) bales (loose)	ton	13,30	16,30
	b) packs (4-8 bales each)	ton	10,30	13,30
46	Glass sheets, glassware, chinaware, ceramics, pottery (cases)	ton	14,30	19,80
47	Fresh fruit and vegetables (in cases, cartons)	ton	20,30	23,30
48	Chilled / frozen goods (in cases, boxes, cartons)	ton	15,30	19,80
49	Livestock	ton	18,30	
50	Fodder	ton	20,30	

Section IV	SURCHARGES ON THE RATES IN SECTIONS I, II AND III, Columns 4, 5	Unit	Percentage
51	Surcharge for fragile goods, as per type of cargo		+20%
52	Surcharges for voluminous goods, depending on handling option:		
	a) goods in bags:		
	• 2,0 – 2,4	cubic metres per ton	+30%
	• over 2,4	cubic metres per ton	+50%
	b) timber, wood products and other general cargoes:		
	• 3,0 and up to 6,0	cubic metres per ton	+20%
	• 6,0 and up to 10,0	cubic metres per ton	+50%
53	Handling of dangerous goods (as per IMO classification):		
	a) Explosive (1)		+200%
	b) Toxic (6.1), Flammable liquids (3)		+100%
	c) Substances liable to spontaneous combustion (4.2), Infectious substances (6.2)		+75%
	d) Compressed, liquefied, dissolved gases (2), Flammable solids (4.1), Substances which, in contact with water, emit flammable gases (4.3), Oxidizing substances (5.1), Organic peroxides (5.2), Corrosive substances (8.0)		+50%
54	d) Miscellaneous dangerous goods (9.0)		
	Metals, metal products, timber, equipment, etc. over 8 m in length, depending on handling option:		
	a) over 8 and up to 15 m		+25%
	b) over 15 and up to 25 m		+50%
55	c) over 25 m		
	Operations requiring manual pushing, arranging or pulling out cargo during container (un)stuffing and/or rear loading of trucks, the rates for the main handling services shall be increased by		
			+30%

EXPLANATORY NOTES to Table 1

- When a floating/ship crane is employed for cargo handling, (in the absence of port hoisting/handling equipment) the relevant rates are subject to 40% discount.
- Item 1, the two types of meal cargo are specified:
 - heavy meal means a type of cargo with SF up to 1.60 m³/ton
 - light meal means a type of cargo with SF over 1.60 m³/ton.
- Item 9.1 (coal Grade D) refers to coal with sulphur content 0.5% - 1%.
- Charges in Section III, Items 31, 43, 44, 45, 46, 47, 50 of the table include the due surcharges for voluminous goods.
- Charges in Section I, Item 16 of the table include weighing by means of a port's weighbridge, and the charge marked with an asterisk (*) applies in case that there is no regular supply of minimum 1000 tons per day alongside the vessel.
- The technologic chart for handling of bags over 30 kg (Item 28b) and the relevant provisions for health and safety at work require that:
 - the unit weight of goods shall not exceed 50 kg when moving/transferring such goods to a distance more than 2 m

- b) the unit weight of goods shall not exceed 30 kg when moving/transferring such goods to a distance more than 30 m.
6. The charge under Item 30, Section III of the above table shall apply to standard *Euro-pallet*, with dimensions 120/80/14,40 cm; weight of ~ 24 kg and *industrial pallet*, with dimensions 120/80/14,40 cm; weight of ~ 28 kg;; a platform/deck intended for storage and transfer of goods which can either be fastened by belts/ropes/straps or wrapped with plastic foil (thermal or stretch film), *load capacity up to 1,500 tons*.
 7. The charge under Item 33(h), Section III of the above table is a lumpsum price. The service shall be provided upon request properly issued and submitted by the Customer applying for the relevant cargo handling operation (incl. shipment of cargo), indicating the payer of service (on behalf of the ship owner).
 - 7.1 For cargo handling operations with ship machinery of unit weight over 3000 kg, the Customer shall be charged the relevant rate per machine-hour or part thereof, as per Table 4 of these "Terms & Conditions and Charges for Services provided by Port of Varna EAD."
 8. With reference to Item 35, Section III, no movements of self-propelled track-mounted equipment shall be allowed on the territory of port terminals.

TABLE 2. CARGO STORAGE (EUR, €)

Item	STORAGE PERIOD IN A PORT STORAGE FACILITY	Unit	EAST/WEST TERMINAL			STORAGE BASE	
			Closed storage	Open storage	Under shelter	Closed storage	Open storage
1	2		3	4	5	6	7
Cargo storage, import							
1	a) From the 1 st day to the 5 th day	ton/day	free	free	free	free	free
	b) From the 6 th day to the 20 th day	ton/day	0,04	0,03	0,035	0,03	0,02
	c) From the 6 th day to the 35 th day	ton/day	0,13	0,08	0,105	0,09	0,05
	d) From the 6 th day to the 65 th day	ton/day	0,21	0,12	0,165	0,16	0,09
	e) Over 65 days (to be counted from the 6 th day)	ton/day	0,27	0,14	0,205	0,23	0,12
Cargo storage, export							
2	a) From the 1 st day to the 10 th day	ton/day	free	free	free	free	free
	b) From the 11 th day to the 40 th day	ton/day	0,13	0,08	0,105	0,09	0,05
	c) From the 11 th day to the 70 th day	ton/day	0,21	0,12	0,165	0,16	0,09
	d) Over 70 days (to be counted from the 11 th day)	ton/day	0,27	0,14	0,205	0,23	0,12
Cargo storage, transit							
3	a) From the 1 st day to the 30 th day	ton/day	free	free	free	free	free
	b) From the 31 st day to the 60 th day	ton/day	0,13	0,08	0,105	0,09	0,05
	c) From the 31 st day to the 90 th day	ton/day	0,21	0,12	0,165	0,16	0,09
	d) Over 90 days (to be counted from the 31 st day)	ton/day	0,32	0,19	0,255	0,27	0,15
Cargo storage, after container unstuffing, dangerous goods, not going via berth (land-land), redelivery							
4	a) From the 1 st day to the 15 th day	ton/day	0,04	0,03	0,035	0,03	0,02
	b) From the 1 st day to the 30 th day	ton/day	0,13	0,08	0,105	0,09	0,05
	c) From the 1 st day to the 60 th day	ton/day	0,21	0,12	0,165	0,16	0,09
	d) Over 60 days (to be counted from the 1 st day)	ton/day	0,27	0,14	0,205	0,23	0,12
5	Cargo storage	per ton per month	3,08	1,76	2,42	3,08	1,76
6	Cargo storage	per sq. metre per month	3,20	2,10	2,65	2,40	1,80
7	STORAGE OF GRAIN IN A SILO FACILITY						
Silo with capacity up to 10,000 tons							
7.1	a) 1 st – 10 th day	silos/day	free				
	b) 11 th – 30 th day	silos/day	500				
	c) 31 st – 60 th day	silos/day	800				
	d) after 61 st day until shipment	silos/day	1100				
7.2	Reserved capacity for 6 month min 30,000 tons (3 silos)		to be agreed				
7.3	Storage in a newly hired silo, in the case of a relocation *without another free period	per silo	to be agreed				
8	Storage of empty vehicles, to be counted from the 1 st day		Open storage				
			up to 30 days			over 30 days	
	a) cars, jeeps	per unit per day	10			15	

	b) mini-busses, light trucks (up to 3 tons)	per unit per day	15	20
	c) trucks (over 3 tons), buses, agricultural or road construction equipment	per unit per day	20	30
9	Monthly fee for preparing and keeping records and security for goods under Customs regimes:			
	a) "Temporary storage", after 45 days of storage		0.1% of the value of customs duties for each Temporary Storage Declaration, but not less than EUR 50 per month or part thereof	
	b) "Customs warehousing", to the amount of		0.6% of the value of customs duties for each Customs Declaration, but not less than EUR 50 per month or part thereof	

EXPLANATORY NOTES to Table 2

1. Free storage periods shall be awarded to goods under Items 1, 2 and 3 of the above Table 2 as follows:
 - a) Import goods – for a period of 5 (five) days
 - b) Export goods – for a period of 10 (ten) days
 - c) Transit goods – for a period of 30 (thirty) days.
2. The above free storage periods will not apply to cargo under Items 4, 5, 6 and 7 of the above table, including perishables, chilled or frozen goods.
3. Free storage periods shall be counted from the day of receiving of cargo at the Port's storage facility.
4. Storage charges under Items 1, 2 and 3 of the above Table 2 will be calculated for the entire charged storage period, counted from the day following the free storage up to the shipment day inclusive.
5. In case of storage of dangerous goods which has been allowed by the Port, the charges will be subject to surcharge at the same rates which apply to the main handling services.
6. For transferred cargo from one storage area to another within the port terminals /Storage Base, another free storage period shall not apply.
7. The Port shall be entitled to agree:
 - a) in case of a long-term storage of cargo per ton per month or per day, the storage shall be calculated on the basis of "square metre of occupied area per month or part thereof"
 - b) the storage of specific goods requiring specific conditions
 - c) for each individual case – the calculation method to be used, the charge to be applied as per above table, and other storage terms and conditions.
8. For keeping of goods in storage at the port facilities which are subject of a lien and/or pledge, the Client shall be charged in addition EUR 0.30 per ton per month or part thereof.
9. Additional conditions with regard to receiving, transportation/transfer of grain in bulk and storage of such grain in a silo facility
- 9.1 Whenever an increase of temperature inside the silo is observed owing to a live pest infestation, the Port shall send immediately to the Client a written request for consent to perform cargo fumigation. The Client shall respond in writing not later than 48 hours of receipt of such request.

- a) In the case of Client's consent, the Port shall take the necessary action for fumigation of cargo, which service shall be invoiced and paid for in accordance with Item 5 of the above table.
- b) In the case of Client's refusal, the Client shall be required to remove the cargo (vacate the entire silo where such cargo is stored) not later than 10 (ten) days of receipt of the request for consent to perform fumigation.
- c) In the case of Client's failure to remove the cargo within the above time limit, the Port shall take immediate action for storage of this cargo, including relocation or evacuation of such cargo for the account and risk of the Client.

9.2 In the case of increased temperature inside the silo above the permissible levels (not more than 20°C difference between the lowest outside temperature and the highest inside temperature during fall/winter), and agreed period of intended cargo storage not shorter than one month; whenever such temperature difference is observed, the Port shall notify the Client in writing about the need of active ventilation.

- a) The Client shall have the right to inform the Port within 7 (seven) days of the notice about any intended shipment of that cargo before the expiry of the one-month period, in which case the conditions for a mandatory active ventilation shall not exist.
- b) The active ventilation shall be performed immediately after expiry of the 7-day period, unless the Client has confirmed within this 7-day period its intention for shipment of that cargo, whereby the Client shall be committed to accomplish such shipment.
- c) The service shall be invoiced and paid for in accordance with Item 7 of the above table.

9.3 The fumigation (disinsection) service of a silo shall be performed whenever necessary, in coordination with the Client, on the basis of Client's additional request, where technically possible. In order to perform fumigation of a silo filled up to its maximum capacity, a partial relocation of some 10% of the cargo to another free silo would be necessary (subject to availability).

9.3.1 Fumigation shall be required in the following cases:

- a) Upon request by the Client
- b) Cargo received with live pest infestation of 2 pcs/kg to be ensiled for a period of 30 days or longer
- c) Cargo received with live pest infestation of 3 to 5 pcs/kg to be ensiled for a period of 20 days or longer
- d) Repeated (within 3 days) temperature increase as a result of pest infestation. In this case, the fumigation process shall begin within 48 hours, or if silo discharging process had started – within 72 hours.

9.4 Other measures related to cargo storage:

- a) Cargo shall not be ensiled in the case of pest infestation exceeding 5 pcs in a sample of 1 kilogram.
- b) When a silo is being fumigated, the period of air-tight exposure is 168 hours, with additional 48 hours of degassing time. There is a serious risk for both humans and animals in the proximity of cargo, should any loading operations begin before the end of this period.
- c) The quarantine period shall be 45 days for bread wheat, and 60 days for all fodder crops.

9.5 When calculating the storage period in a silo, the final day of storage shall be regarded:

- In the case of vessel loading: the date of commencing of loading operations;
- In the case of vessel loading, when loading had been suspended for reasons beyond the Client's or the Port's control: the date of completion of ship loading;
- In the case of re-shipping – the day when the final cargo quantities were taken out from the silo.

TABLE 3. OTHER PORT AND ANCILLARY SERVICES

Item	TYPE OF SERVICE	Unit	CHARGE, EUR	
1	2	3	4	
Section I	OTHER PORT SERVICES			
1	Moving/shifting of cargo on board (% of the rates for direct handling in Table 1):		percent	
	a) in ship's hold / on deck		50 %	
	b) from one ship's hold to another		100 %	
	c) from ship to berth and back to ship or from one ship to another ship, via berth		200 %	
	d) from one ship to another ship, direct transshipment		120 %	
2	Moving/shifting of cargo within storage area (% of the rates for direct handling in Table 1):			
	a) inside storage area (mechanised operations)		50 %	
	b) inside storage area (manual operations), or transfer of cargo from ready-made disposable pallet to another Euro/industrial-pallet (to be supplied by the Customer)		80 %	
	c) from one storage area to another	with port equipment		50 %
		with transport by a customer		25 %
	d) transfer of bulk material from a quay stockpile to a landside stockpile or vice versa (coal, clinker, ores and concentrates, etc.)	per ton		0,60
e) Relocation to another silo as necessary, and in the case of long storage of cargo in the silo			to be agreed	
3	Sorting of cargo (% of rates in Table 1)		percent	
	a) on board (rates for direct handling)		30 %	
	b) inside storage area, without weighing (rates for direct handling)		30 %	
4	Stuffing and binding of bags or cutting and emptying bags into ship's hold – for cereals and oilseeds (% of rates for direct handling, Table 1)		percent	
	a) without arranging		50 %	
	b) with arranging		100 %	
5	Palletizing / un-palletizing of goods (% of rates for indirect handling, Table 1)		50 %	
6	LASHING:			
6.1	Loose or consolidated cargo units in conventional packing (onboard, inside rail wagon / truck / container)	per ton	2,15	
6.2	Vehicles on a specialized vessel or inside a container			
	a) by means of slings (of the vehicle)	per unit	9	
6.3	b) firm lashing unit (of the vehicle)	per unit	15	
	Vehicles on non-specialized vessel	per man-hour	19	
7	UNLASHING:			
a)	goods in conventional packing (on board, inside rail wagon / truck)	per ton	1,80	
b)	vehicles on specialized vessel – the rate in above Item 6.2 will apply		-20%	
c)	vehicles in non-specialized vessel	per man-hour	18	

d)	special lashing/unlashing of cargo on board or inside a vehicle		to be agreed	
8	Dunnage / covering / uncovering			
8.1	In ship's holds or in wagons (covering the floor with paper, cardboard, polyethylene or placing/removal of separating material)	per man-hour	19	
8.2	Covering or uncovering with canvas:			
a) wagons	discovering	per unit	5,00	
	covering		10,00	
b) trucks or trailers		per unit	4,00	
9	Each opening / closing of ship's holds	per hatch cover	41	
10	Using of Port's labour for additional operations	per man-hour	19	
11	Cleaning of ship's cargo compartments, incl. between the ship frames	per sq. metre	0,60	
12	Usage of materials to prevent freezing (salt, paper)			
a) in wagons		per unit	4,50	
b) in trucks or trailers		per unit	3,00	
13	Securing of wagon doors	per unit	3,00	
14	Sealing of wagons	per unit	4,50	
15	Each separate weighing of trucks (gross or tare)			
a) truck without trailer		per unit	2,50	
b) truck with trailer		per unit	3,00	
16	Fumigation of wagons, per unit	per unit	7,00	
17	Wrapping of pallets (materials to be provided by the Customer)	per pallet	5,00	
18	WEIGHING, FUMIGATION, ACTIVE VENTILATION of grain in bulk handled via silo facility			
18.1	Weighing of cargo upon entering and exiting the silo	per ton	0,30	
18.2	Active ventilation of cargo inside the silo * if necessary	per ton	1,00	
18.3	Fumigation inside the silo * if necessary	per ton	0,30	
Section II	SPECIFIC WORKING CONDITIONS	Unit	Charge, EUR	
19	For work performed out of working hours (overtime), incl. public holidays, a surcharge will apply on the rates for main handling services		100%	
20	Downtime			
20.1	Standing by of port labour	per man-hour	19	
20.2	Standing by of port labour during overtime	per man-hour	28	
20.3	(A) After written notice has been made by the Port, any vessel's delay (other than containership) at an operational berth for more than 4 hours after berthing, during handling and/or after completion will be charged for vessels with gross tonnage	up to 10,000 GRT	per hour	550
		over 10,000 GRT	per hour	850
	(B) Unproductive standing by of a port gang and equipment (at operating point) will be charged	per hour	450	

	(C) Interruption of the continuous loading facility operation (for vessel de-ballasting or any other reason) will be charged	per hour	850
Notes:	<p>1) The above charges shall apply for delays not resulting from either Port's misbehaviour, or force majeure, or banned ship manoeuvring, or waiting for a pilot to assist ship departure.</p> <p>2) The delays shall be charged for the account of the party, which has caused such delays (ship owner, freight forwarder, shipper and consignee).</p> <p>3) In the case of repeated interruptions relevant to the Item (c), the total time of delay will be charged.</p>		
Section III	DOCUMENT ISSUANCE DURING CARGO PROCESSING AND OTHER SERVICES	Unit	Charge, EUR
21	Issuing of warehouse receipts and storage certificates	per unit	10
22	Issuing of documents upon Customer's request:		
22.1	Weighing report	per unit	2.00
22.2	Weighing note or warehouse receipt		0,50
23	Changing of documents due to transfer of title or in any other case because of the Customer	per operation	24
24	Giving labour safety instructions to workers/ representatives of the Customer under concluded agreement	per course of instructions	24
25	Issuing of permit for hot works, including inspection	per document	117
26	Stay of cars in port areas (up to 1 day) for transfer of title or customs clearance	per car	35
27	Each passing / staying of a rail wagon via Port's rail infrastructure		
27.1	Each passing of a rail wagon via Port's rail infrastructure without productive activity	per wagon	12
27.2	Staying of a full rail wagon on empty port's rail infrastructure (excluding wagons with dangerous goods)	per wagon per day	2,00
27.3	Staying of a empty rail wagon on empty port's rail infrastructure		1,50

Section IV	SUPPLY OF ELECTRIC POWER, WATER, TELECOMMUNICATION AND OTHER SERVICES		Unit	Charge, EUR
28	Electric power supply to all users		as per tariff of a licensed service provider	
28.1	Maintenance of local low-voltage electric power system and measuring devices		10% of the rate in Item 28	
28.2	Connecting/disconnecting to the port's power system	of vessels in international voyage	per operation	175,50
28.3	Connecting to the port's power system	of other users (legal/natural persons), incl. cabotage vessels	per operation	93
28.4	Moving from one berth to another (connecting/disconnecting) of power supply panel, upon request	of vessels in international voyage	per operation	175,50
		of other users (legal/natural persons), incl. cabotage vessels	per operation	93
28.5	Connecting of facilities of Clients having concluded contracts for hiring of offices, storage areas, etc. to the power supply network and opening of new electric service accounts			

Consumer group	Connected power (kW)	For power supply line, length up to 5m (EUR)	For each additional meter of power supply line, over 5 m (EUR per meter)	
1	up to 6	234	12	
2	7 – 15	351	18	
3	16 – 50	1,170	24	
4	51 – 100	3,218	47	
5	101 – 200	5,558	59	
6	201 – 300	12,285	70	
7	over 300	to be agreed	to be agreed	
28.6	Inspection of electric meter, upon request by the Customer		per operation	24
29	Fresh water supply		as per tariff of a licensed service provider	
29.1	Service charge	of vessels in international voyage	per cubic metre	5
29.2	Maintenance of local water supply system, maintenance of pump stations and measuring devices	of other users (legal/natural persons), incl. cabotage vessels	10% of the rate in Item 29	
29.3	Provision of access and connecting to the port's water supply system	of vessels in international voyage	per operation	60
		of other users (legal/natural persons), incl. cabotage vessels	per operation	60
30	Telephone installation / bridge connection within port's network		per unit	45
31	Relocation of existing telephone user		per unit	5,00
32	Telephone calls within the Port, per user		per month	14,00
33	Usage of bridge connection		per month	9,00
34	Providing a SIM card for telephone calls within closed port's group (all port telephone users)			to be agreed
34.1	All telephone calls beyond the port's group, incl. SMS, MMS, roaming shall be charged		per month	as per Item 35
35	Telephone calls via the Port's automatic exchange		as per tariff of a licensed service provider	
36	Embarking/disembarking of passenger to/from a cruise/passenger ship		per passenger	6,00 €
37	Service charge for passenger traffic on tourist cabotage vessel		per month	to be agreed, depending on vessel capacity
38	Posting advertisements in locations on the territory of Port of Varna EAD by advertisers	up to 100 sq. metres	per sq. metre per year	90 €
		more than 100 sq. meters		72 €
39	Provision of port's portable office-container on the territory of Port of Varna EAD in relation to the Customer's business		per month	82 €
39.1	Placing of a mobile container office owned by a Client on the territory of Port of Varna EAD in relation to the Client's business * the charge does not include container handling service		per sq. metre per month	2,40 €

Section V	Port service for mooring operations to vessels with gross tonnage (GRT)	per	EUR
1	up to 1000	mooring and unmooring	220
2	1001 – 2000		280
2	2001 – 3000		340
4	3001 – 4000		380
5	4001 – 5000		420
6	5001 – 6000		460
7	6001 – 7000		500
8	7001 – 8000		540
9	8001 – 9000		580
10	9001 – 10 000		620
11	over 10 000 per each 1000 GRT or part thereof		70
Section V (A)	Berth facilities fee usage /BFFU/	per LOA(m) per hour	0,05
* The time shall be counted from the moment of mooring until unmooring of the vessel			
** Vessels that have been moored before 01.07.2024 shall not be charged.			
*** 100% of this fee is used for maintenance of berth facilities (fenders, bollards and other adjoining infrastructure)			

	LOA (m)	EUR per day	EUR per 10 days	EUR per month
1	up to 15 m	20	98	220
	16 – 50 m	27	147	330
	51 – 100 m	75	410	1108
	101 – 150 m	108	588	1584
	Over 150 m	130	700	1900
Note: The above rates shall apply also to non-contract vessels for staying less than 30 days. For longer stay, such vessels shall be charged as per the following Item 2:				
2	LOA (m)	EUR per day	EUR per 10 days	EUR per month
	up to 15 m	110	770	1760
	16 – 50 m	150	1050	2640
	51 – 100 m	420	2940	7392
	over 100 m	600	4200	10 560

Section VII	PROVISION OF A BERTH to vessels for the purposes of ship supply and crew change (without using port equipment and labour)	EUR per day
	LOA (m)	
	up to 15 m	34
	over 15 m and up to 50 m	46
	over 50 m and up to 100 m	130
	over 100 m	186

EXPLANATORY NOTES to Table 3

Section I

1. When performing additional operations, the surcharges for OOG - voluminous and oversized cargo will apply to each separate operation.
2. The abbreviation LTV shall be mean a Land Transport Vehicle
3. Container stuffing or stripping, cargo reloading from/to container to/from vehicle, or from one container to another – ADDENDUM CT

Section III

4. For services under item 19 of Table 3:
 - a) the Customer shall place a written request to the Port not later than 10.00 hrs on the working day before the day of requested service;
 - b) the relevant charges apply to all those directly involved in the handling process, including dockworkers, drivers, storage workers, operators and employees working on schedule.

Section IV

5. FOR SHIPS
 - a) When shore power supply is requested, the Customer shall declare the type of requested power supply (1 or 3-phase) and needed capacity (kW).
 - b) Consumed electric power shall be measured by means of electric meter (one-rate or three-rate meter) owned by the user.
 - c) When the consumed power is not measured by an electric meter, the power consumption will be estimated on the basis of the installed capacity and the hours of operation.
 - d) The cost of consumed electric power and water shall be paid at the rates of the respective licensed service provider, including any additional charges as per Items 28.1, 28.2, 28.4, 29.1 and 29.3 of the same section.
 - e) Services shall be invoiced on the basis of documents issued during service rendering, signed by ship's master or ship's agent.
6. OTHER USERS
 - a) The tenants of Port property will pay for consumed electric power, water and used telephone services at per the tariff of respective licensed service provider.
 - b) The repairing/maintenance costs for electric installations in the leased premises shall be for lessee's own account.
 - c) Electric power, water and telephone service will be provided on a contractual basis or upon written request.
 - d) Maintenance, connecting/disconnecting, transfer to/from the electric/water supply system for the purposes of provision of electric power/water to other users (legal/natural persons) offering services to vessels (ship repair, etc.) or to other facilities on the territory of the Port, such users shall pay the relevant prices to the licensed suppliers, including any additional charges as per Items 28.1, 28.3, 28.4, 29.2 and 29.3 of the same section.
7. Positioning of a portable office-container acc. items 39 and 39.1 is possible with the permission of the terminal director

Section V

8. The ship owner shall pay for mooring and unmooring service and berth facilities fee usage through its respective agent.

Sections VI and VII

9. The charges shall apply as per the vessel's LOA (maximum linear length).
10. The service shall be provided subject to agreement and permission from the Port Terminal Director.

TABLE 4. HIRING OF PORT PLANT

Item	Type and Capacity of Port Plant	Unit	CHARGE, EUR (per machine-hour or part thereof)
1	2	3	4
1	ELECTRIC PORTAL CRANE		
	a) up to 10 T		79
	b) over 10 T and up to 20 T		103
	c) over 20 T		168
2	MOBILE CRANE		
	a) hydraulic material handler with capacity	up to 12 T	200
	b) capacity	63 T	358
	c) capacity	84 T	477
	d) capacity	100 T	596
	e) capacity	144 T	842
3	FORKLIFT TRUCKS		
	a) capacity	up to 5T	35
	b) capacity	over 5T and up to 10T	59
	c) capacity	over 10T and up to 28T	82
4	BUCKET LOADERS for bulk cargoes		
	a) capacity	up to 1.6 T	47
	b) capacity	over 1.6 T and up to 6 T	71
	c) capacity	over 6.0 T	132
5	TRACTOR-TRAILER, capacity	up to 10 T	59
6	Mini front loader with a brush, sweeping width	1.80 m	51
7	REACHSTACKER for container handling	45/46 T	160
8	Mobile man lift platform, trailer type (lifting height, capacity)	up to 17m 200kg	47
		(does not include transfer to the worksite)	
9	Road roller (rolling width, weight)	650mm 696 kg	45
10	Motor sweeper, sweeping width	2.50m	73

EXPLANATORY NOTES to Table 4

1. The table applies when the above equipment is used for additional services beyond the normal technologic process, upon prior written request by the Customer.
2. When hiring self-propelled equipment as per Items 3 and 4 of the table, the time of usage shall be counted from the starting time of driving such equipment to the worksite until the time of returning to the respective port terminal of Port of Varna EAD. Before the control authorities, the transfer of any equipment without registration shall be for the account and responsibility of the user.
3. The charges in the above Table 4 include using of Port's drivers and fuel of the equipment. The equipment under Items 1 and 2 of the table shall be used with compulsory assistance of Port's workers to handle the lifting attachments, and the costs thereof shall be paid in addition.

TABLE 5. SERVICES TO SPORTS & PLEASURE BOATS

SECTION I		Sports & Pleasure Boats Staying at Port of Varna , in waters (EUR, €)		
1	2	3	4	
Boat LOA, m up to	Daily	Weekly	Monthly	
7	6	35	117

over 15 per each extra metre		3	18	

SECTION III. Other Services Provided to Sports & Pleasure Boats (EUR, €)		
TYPE OF SERVICE	Unit	CHARGE, EUR
1. Electric power supply	as per tariff of a licensed service provider	
1.1 Maintenance of local low-voltage electric system and measurement devices	10% of the charge in Item 1	
1.2 Connecting/disconnecting to/from the power system	per operation	35
1.3 Moving from one berth to another (connecting/disconnecting) to power supply panel, upon request	per operation	12
2. Checking and charging of battery	per operation	7
3. Fresh water supply	as per tariff of a licensed service provider	
3.1 Maintenance of local water supply system, pump stations and measurement devices	10% of the charge in Item 3	
3.2 One connecting/disconnecting to the water supply system	per operation	18
4. Arrangements for border control to a vessel which has not hired a ship agent (incl. veterinary inspection)	per operation	24
5. Each lifting/lowering of sports boats to/from the concrete slipway at Varna East port terminal	per operation	6
6. Each lifting/lowering of sports boats through the console crane (capacity up to 2 t) at Varna East port terminal	per operation	11

EXPLANATORY NOTES to Table 5

1. No loading or discharging operations are permitted in the area designated for sports & pleasure boats.
2. When negotiating services under Section I and Section II for a period longer than one month, the due charge will be based on the rates in Column 4 of Section I and Section II of the above table.
3. Notes to Section I of the above table:
 - a) Boats with LOA exceeding 25 m will be charged in addition per each extra metre or part thereof at the rates given in the last row of the table.
 - b) Vessel's LOA should also include the bow/stern attachments (ex. bowsprit, bathing grate, etc.)
4. The multi-hull vessels will be charged 75% of the above rates multiplied by the number of hulls.
5. The rates in Section II shall also apply to boats standing on a slipway in other areas of Port of Varna EAD.
6. Any services not mentioned in this table will be charged by agreement.

TABLE 6. HIRING OF PORT'S GEAR

Item	TYPE OF GEAR	Capacity, tons	CHARGE per day or part thereof, EUR
1	2	3	4
1	Grab for bulk handling Tipping bucket, 2.8 cub.m	2 T up to 5 T	70
2	Tipping bucket, 5.6 cub.m	5 T	94
3	Tipping bucket, 8.7 cub.m	8 T	117

Item	TYPE OF GEAR	Unit	CHARGE per day or part thereof
53	Metal fence*	BGN per metre	5
54	Concrete fence**	BGN per metre	5
55	Calibration weight (16 units available)	EUR per unit per day	12
56	Fender	EUR per unit per day	106
57	Gangway	EUR per unit per day	47
58	Using of gear unmentioned herein		to be agreed

EXPLANATORY NOTES to Table 6

1. This table applies when the above gear is used for additional services beyond the normal technologic process, upon prior written request by the Customer.
2. Gear shall be received and returned by the Customer on the basis of a bilateral report signed by both parties.
3. Any possible damage to the hired gear or destruction or making it inadequate to function which has been caused by the Customer during usage of such gear shall be charged to Customer's account.
4. Within 2 working days of the possible damage (as described above), the two parties will agree in writing about the damage and the method of restoring the gear to the shape in which such gear had been hired. In case of any dispute about this agreement, the parties will seek to settle it amicably, and should this proves impossible, the parties shall claim their rights in a legal process.
5. Following usage of the gear, the parties shall confirm in a bilateral report the total time of usage by the Customer, subject to the above provisions.
6. Any costs of receiving and returning of the requested gear shall be for Customer's account.
7. The Port shall not be liable for any accidents or injuries which have occurred during operations with Port's gear while hired by the Customer.
8. * The charge (item 56) includes erecting, dismantling and transportation of metal fence.
** The cost of installation, removal and transportation of concrete fence (item 57) shall be charged additionally at the respective price in Table 4 of "Terms & Conditions and Charges for Services provided by Port of Varna EAD" (in accordance with a statement for usage of port equipment with specified machine hours).

**TABLE 7. ISSUING OF PERMITS (MAGNETIC CARDS)
FOR ACCESS TO PORT TERMINALS**

Section I Permits for access of motor vehicles to perform varied services relating to port operations, charges in BGN (VAT excluded)				
1	2	3	4	5
Type of vehicle		Single entry	For 30 days	For 1 year
1	Access of a vehicle to VARNA EAST port terminal			
1.1	Category M 1, 2, 3	15	130	618
1.2	Categories N 1, 2, 3 and O 1-4	32	195	780
2	Access of a vehicle to VARNA WEST port terminal			
2.1	Category M 1, 2, 3	12	100	522
2.2	Categories N 1, 2, 3 and O 1-4	32	195	780
3	Combined access of a vehicle to both VARNA EAST and VARNA WEST port terminals			
3.1	Category M 1, 2, 3	22	195	812
3.2	Categories N 1, 2, 3 and O 1-4	36	260	975
1	Issuing of a personal permit to enter the Port (including initial safety instructions)		per calendar year	15
1.1	Reissuing of a personal permit to enter the Port as well as for unreturned temporary access pass due to the fault of permit holder (excluding initial safety instructions)		per permit	10,23
2	Issuing of a permit for a single entry, when performing works by the Customer on Port's territory		per permit	1

EXPLANATORY NOTES to Table 7

1. Issuing of permits for vehicles owned by companies, organisations and individuals to provide access for the purposes of performing various types of services relating to port operations shall be following the Rules for Control and Access Regime at Port of Varna EAD and with the Instructions for action when issuing different types of permits for access to the territory of Port of Varna EAD (IK-501 v.05/18), unless otherwise agreed.
2. Information regarding access and application forms for access of vehicles are available at the website of Port of Varna EAD, section "For Customers".
3. In case of violation of the provisions of the Rules for Control and Access Regime at Port of Varna EAD and the Safety Instructions for Traffic and Operations of Vehicles on the Territory of Port of Varna EAD (IK-514), i.e.:
 - a) speed limit violation, parking and leaving a car in restricted zones, repairing, car washing and other actions in violation of the HSE regulations, then the measures in Item 6, Section VI of the Rules for Control and Access Regime at Port of Varna EAD the shall apply:

- | |
|--|
| - Warning |
| - Withdrawal of permit before expiry |
| - Denial of access for a period of 1 to 6 months |

- b) for vehicle staying overnight without permission, the offender shall be charged:

- Category M and category M 1, 2, 3	BGN 30
- Categories N 1, 2, 3 and O 1, 2, 3, 4	BGN 40

3.1 For any damage to security equipment or components of the access control system (barriers, turnstile gates, fencing, etc.), those responsible for the damage will be charged:

- for minor damage (bent or broken barrier arm, pole or turnstile)	BGN 200
- for medium-level damage (broken barrier arm, pole, turnstile, etc. plus deformation of brackets or mechanisms)	BGN 300
- for major damage or breakdown of expensive components (cameras, controllers, etc.), the cost of damaged equipment shall be paid after examination and assessment by the Port's IT Department.	

3.2 The above charges do not include VAT owed in accordance with the current VAT Act and the Regulation for Application of VAT Act.

APPENDIX 1

MAKING AND SETTLING OF CLAIMS

1. Any claims relevant to execution of a contract with respect to operations, organization of technologic process or technical service shall be made in writing by e-mail at: headoffice@port-varna.bg, with a copy respectively to:
 - Varna East Port Terminal (ts-east@port-varna.bg) or
 - Varna West Port Terminal (office@west.port-varna.bg).
2. Any claims relevant to execution of a contract with respect to accidents or damages shall be made in writing by e-mail to: headoffice@port-varna.bg, with a copy to the General Average Officer (e-mail: claims@port-varna.bg; ppi@port-varna.bg) immediately after finding out such accident or damage, but not later than 4 (four) hours of the event.
3. In case that any accident, damage and/or deficiency is found by the Customer, the Customer shall notify the Port without delay in accordance with Item 2.
4. The Customer agrees that no damages will be claimed with the Port in case of minor events (damages less than BGN 500), in view of the good business relationship and the insignificance of the damage.
5. Without prejudice to Item 4, when making a claim, the Customer shall present full set of documentation to ascertain the relevant event, after having properly fulfilled the above Item 2:
 - 5.1. Description of the event: date, time, No. of General Average Act or Notice Receipt duly issued by Port's officials
 - 5.2. Photos
 - 5.3. Copy of correspondence with aggrieved parties (if any)
 - 5.4. Contact person, correspondence address and telephone number.
6. Claims which do not contain the documents listed in Item 5, will be denied primarily, due to lack of documentation proving such event on Port's territory.
7. In case of claims which have been made within the above time limits, but do not allow inspection by Port's representatives (as to ships – after ship's departure; or as to goods or containers – after shipment of such goods or containers), such claims will be denied secondarily due to impossibility for bilateral recording and proving of the event.
8. In case of claims which have been made within the above time limits, but do not allow inspection by Port's representatives due to objective impossibility (ex. during ship's departure, or during goods shipment and leaving Port's territory), the Customer is required to submit a report issued by an independent survey organization and supported by photo evidence when making such claim.
